WORK

IBM Design Austin, TX
Design Intern Sep 2016 - Nov 2016

Team lead and frontend developer in a 7 week project for IBM Bluemix. Used design thinking to develop the project vision and strategy. Lead interns in a week long project to create a website, video and visual guides for the Maelstrom program. Worked alongside researchers, visual designers and experience designers to research, prototype and code the website.

Slack San Francisco, CA

Frontend Engineer Intern May 2016 - Aug 2016

Worked on the Growth team to drive team sign up by automatically notifying and freeing up inactive domains. Collaborated with backend and data engineers to code the feature in Javascript and PHP. Implemented various features on Slack's web client, in areas such as keyboard shortcuts and profile photos.

Qualcomm San Diego, CA

Software Engineer Intern May 2014 - Aug 2014

Designed a framework to automatically validate the Android user interface. Used Perl, Java, and Batch scripts to integrate the tool into the testing platform. Developed and refactored Android apps used for testing.

EDUCATION

University of Illinois at Urbana Champaign
